

Group Exercise: Identifying Source of Information for IR Reporting

Chatthep Chanyam

Technical Officer
A6IP/ IGES

Section I. Participation responsibilities

- A** It is a Party to the Paris Agreement
- B** It has prepared, communicated and is maintaining an NDC in accordance with Article 4, paragraph 2
- C** It has arrangements in place for authorizing the use of ITMOs towards achievement of NDCs pursuant to Article 6, paragraph 3
- D** It has arrangements in place that are consistent with this guidance and relevant decisions of the CMA for tracking ITMOs
- E** It has provided the most recent national inventory report required in accordance with decision 18/CMA.1
- F** Its participation contributes to the implementation of its NDC and long-term low-emission development strategy, if it has submitted one, and the long-term goals of the Paris Agreement.

Reporting elements		Possible source of information
Participation responsibilities	A. It is a Party to the Paris Agreement	
	B. It has prepared, communicated and is maintaining an NDC in accordance with Article 4, paragraph 2	
	C. It has arrangements in place for authorizing the use of ITMOs towards achievement of NDCs pursuant to Article 6, paragraph 3	
	D. It has arrangements in place that are consistent with this guidance and relevant decisions of the CMA for tracking ITMOs.	
	E. It has provided the most recent national inventory report required in accordance with decision 18/CMA.1	
	F. Its participation contributes to the implementation of its NDC and long-term low-emission development strategy, if it has submitted one, and the long-term goals of the Paris Agreement.	

Section II. Description of the Party's NDC

- A** Target(s) and description, including target type(s)
- B** Target year(s) or period(s), and whether they are single year or multi-year target(s)
- C** Reference point(s), level(s), baseline(s), base year(s) or starting point(s), and their respective value(s)
- D** Time frame(s) and/or periods for implementation
- E** Scope and coverage, including, as relevant, sectors, categories, activities, sources and sinks, pools and gases
- F** Intention to use cooperative approaches that involve the use of internationally transferred mitigation outcomes under Article 6 towards NDCs under Article 4 of the Paris Agreement
- G** Any updates or clarifications of previously reported information (e.g. recalculation of previously reported inventory data, or greater detail on methodologies or use of cooperative approaches)

Reporting elements		Possible source of information
Description of the Party's NDC	A. Target(s) and description, including target type(s)	
	B. Target year(s) or period(s), and whether they are single year or multi-year target(s)	
	C. Reference point(s), level(s), baseline(s), base year(s) or starting point(s), and their respective value(s)	
	D. Time frame(s) and/or periods for implementation	
	E. Scope and coverage, including, as relevant, sectors, categories, activities, sources and sinks, pools and gases	
	F. Intention to use cooperative approaches that involve the use of internationally transferred mitigation outcomes under Article 6 towards NDCs under Article 4 of the Paris Agreement	
	G. Any updates or clarifications of previously reported information (e.g. recalculation of previously reported inventory data, or greater detail on methodologies or use of cooperative approaches)	

Section III. Method for applying corresponding adjustments

A

ITMO metrics (para. 18(c))

B

Method for applying corresponding adjustments (CA) as per decision 2/CMA.3, annex, chapter III.B (Application of CA) (para. 18(c))

1. Description of the method for applying CA for multi- or single year NDCs that will be applied consistently throughout the period of NDC implementation, if applicable
2. Description of the method for applying CA where the method is a multi year emissions trajectory, trajectories or budget, if applicable

C

Quantification of the Party's mitigation information in its NDC in t CO₂ eq including the sectors, sources, GHGs and time periods covered by the NDC, the reference level of emissions and removals for the relevant year or period, and the target level for its NDC or, where this is not possible, the methodology for the quantification of the NDC in t CO₂ eq (para. 18(d))

D

Quantification of the Party's NDC, or the portion in the relevant non-GHG indicator, in a non-GHG metric determined by each participating Party, if applicable (para. 18(e))

E

For a first or first updated NDC consisting of policies and measures that is not quantified, information on quantification of the Party's emission level resulting from the policies and measures that are relevant to the implementation of the cooperative approach and its mitigation activities for the categories of anthropogenic emissions by sources and removals by sinks, as identified by the first transferring Party pursuant to paragraph 10, and the time periods covered by the NDC (para. 18(f))

Reporting elements	Possible source of information
