Architecture for
REDD+ Transactions

Supporting Government Reporting of Corresponding Adjustments

4th A6IP Working Group on Tracking
and Reporting

October 30, 2024

Process

- Understand requirements for reporting a Corresponding Adjustment
- Provide information on how the ART Registry supports reporting and captures the information
- Confirm submission of required documents
- Post key documents on ART Registry for transparency
- Ensure credits are labeled appropriately

ART Website Registry Page

ART REGISTRY

ART operates a robust, secure and transparent electronic registry system for participating account holders to register REDD+ programs and record the issuance, transfer and retirement of serialized verified TREES Credits.

Open an Account

Before opening an account, please read the instructions below carefully, and follow the 8 step process.

→ [START THE PROCESS](#)

LOGIN to your Account

Access your ART Registry account here. If you have not registered before, please see 'Open an Account'.

→ [LOGIN TO YOUR ACCOUNT](#)

Public Reports

Public ART registry reports are available for REDD+ programs, TREES Credit issuance, retirement, cancelation and buffer pool account balance. Reports are sortable by column heading and can be searched, printed and/or downloaded as CSV or PDF file. Here are quick links to public reports on the ART Registry:

- [Account Holders](#)
- [TREES Credits Issued](#)
- [TREES Canceled Credits](#)
- [REDD+ Programs](#)
- [TREES Retired Credits](#)
- [Buffer Pool](#)

Guyana's Letter of Authorization

Public Reports

Public ART registry reports are available for REDD+ programs, TREES Credit issuance, retirement, cancellation and buffer pool account balance. Reports are sortable by column heading and can be searched, printed and/or downloaded as CSV or PDF file. Here are quick links to public reports on the ART Registry:

12th February, 2024

TO: Architecture for REDD+ Transactions (ART), Secretariat at Winrock International

C.C: UNFCCC Secretariat

FROM: UNFCCC Designated National Authority, Co-operative Republic of Guyana

RE: Host Country Letter of Assurance and Authorisation related to REDD+ and Guyana's Jurisdictional ART TREES Programme – Guyana ART Programme ID: 102

- The Co-operative Republic of Guyana is a party to the Paris Agreement and has acceded to the Paris Agreement as of 20 May 2016 and is committed to its obligations under the Paris Agreement. Guyana wishes to promote sustainable development and ensure environmental integrity and transparency under the Paris Agreement.
- The National Focal Point, UNFCCC (Guyana), Ms. Pradeepa Goberdhan, is the designated national authority (DNA) of the Co-operative Republic of Guyana.
- With regard to the Program Activity, as described in the documentation attached to this letter, we hereby acknowledge that the program may generate Emission Reductions or Removals in the Co-operative Republic of Guyana and that the Architecture for REDD+ Transactions (ART) has issued, or may in the future issue, offset credits (TREES Credits) for these Emission Reductions or

Host Country Letter of Authorization

EXHIBIT 1: EXAMPLE HOST COUNTRY LETTER OF ASSURANCE AND AUTHORIZATION

DATE:

TO: Architecture for REDD+ Transactions (ART), Secretariat at Winrock International

FROM: UNFCCC Focal Point, Government of Country X

RE: Letter of assurance and authorization related to REDD+ program X

With regard to REDD+ program X, as described in the documentation attached to this letter, we hereby acknowledge that the program may reduce greenhouse gas emissions and enhance removals in country Y and that the Architecture for REDD+ Transactions (ART) has issued, or intends to issue, offset credits for these emission reductions / removals.

We hereby authorize that the REDD+ program's emission reductions / removals, issued as offset credits by ART, may be used by aeroplane operators to meet offsetting requirements under CORSIA [optional: *or by other countries towards achieving their NDC,*] subject to the following restrictions:

- We authorize only the use of the program's emission reductions / removals, for which ART has issued or will issue offset credits, that occur in the period from [DATE] to [DATE]; and
- We authorize only the use of a maximum of [#] tCO₂e of the program's emission reductions / removals, issued as offset credits by ART, for each calendar year.

We hereby request ART to submit annual reports to us, no later than by 31 March of each year, on the use of the offset credit's associated emission reductions / removals by other countries or entities, including volumes canceled for use by each country and entity.

We hereby declare that country X will not use the program's emission reductions to track progress towards, or for demonstrating achievement of, its NDC and that country X will account for the use of the program's GHG emission reductions by aeroplane operators under CORSIA or by other countries through adjustments in the structured summary of country X's biennial transparency reports, as referred to in paragraph 77, sub-paragraph (d), of the Annex to decision 18/CMA.1, and consistent with relevant future decisions by the CMA.

We hereby also declare that country Y will report on the authorization and use of the program's emission reductions / removals by other countries or entities in a transparent manner in the country's biennial transparency report submitted under Article 13 of the Paris Agreement.

Guyana's Annual Report to UNFCCC

Interactions with Country Registries

- Domestic Accounting or Transaction Registries
- Manual
 - Simplest pathway to start
 - Cancel credits in ART Registry
 - Reflect in country registry
 - Reissue in country registry (supply or demand side)
- Automatic
 - Can have automatic links
 - Takes more time and resources

Thank you

Christy Magerkurth

christina.magerkurth@winrock.org
