# CMA 6 outcome strengthens robust and high integrity implementation of Article 6.2

## Enhance clarity on implementation

- Clarify the **authorization components, process, and minimum content**
- Conditions and implications of **changes to authorization**
- Clarify **registry connection**
- Clarify sequencing and timing of reporting
- Clarify the application of first transfer for accounting purposes

## Ensure transparency and integrity

- **Updated draft AEF** (for annual reporting) and supplementary elements on information to be included in the **initial reports** promoting transparency
- Elaborating the process for **identifying, notifying and correcting inconsistencies**
- CARP provides a **public repository authorization** statements/ copies

## Facilitate implementation and strengthen capacity

- A voluntary standardized user-friendly **authorization template** to be provided by the secretariat
- Provision of **registry services** (for issuing mitigation outcome units) as additional service by the secretariat upon request
- **Capacity-building** to implement a national registry
- Automatically generated and **pre-filled annual information** table for BTR by CARP

## Enhance ambition

**Dialogue** on Article 6.2 role in supporting ambition to be held in conjunction with each SBI session

# Accelerating Article 6.4 mechanism operationalization: Progress in 2024

## CMA.6 Decisions on Article 6.4

- Takes note of the adoption by the SB of **methodology requirements and requirements for activities involving removal** while further elaboration and implementation to be expedited.
- Further guidance on the work of the SB to operationalize PACM
- Clarify authorization under Article 6.4, mechanism registry connection, and other related matters
- Decide the transition conditions for CDM A/R projects/PoAs

## Work of the Article 6.4 Supervisory Body

- Adoption of **methodology requirements and requirements for activities involving removal**
- Adoption of standards, procedures and tool, including **SD tool** and **Appeal and grievance processes**

## Country-level

- **96 Parties** designated DNAs for 6.4 (**now 98**)
- **10 Parties** submitted the fulfillment of host party responsibilities form (**now 12**)

(As at 28 October 2024)

## Activity-level

- **Over 1,000 activities** submitted prior notification to be Article 6.4 activities
- **10 CDM projects/PoAs** approved by Host Parties for transition to Article 6.4 (**now 21**) (From over 1,000 activities requested transition)

(As at 14 November 2024)

# Private sector plays an important role in 2025

- With the full operationalization of Article 6, **2025 is the year of implementation** where Article 6 must deliver tangible mitigation impacts – **driving ambitious and high integrity mitigation activities on the ground and building trust in cooperative implementation.**
- Private sector plays a crucial role in **initiating and facilitating development of actual mitigation activities** aligning with the host countries' priorities and sustainable development objectives.
- Private sector may need to be informed of **various Article 6 authorization arrangements and related processes** set by each country – Importance of accessibility to relevant information, clarity and transparency, and effective communications
